

P. Frank & Son Bob, Robert  
mention no stop & make yellow July 19

Well, dearie or darlings, or  
something!

It's about time for at least  
a card, so I've enclosed one.  
message from anyone of you will  
do.

Nothing very exciting here. You  
might be interested to know that Mrs.  
Toedt, whose husband died and who  
lived on Sycamore and who had  
4 children and red-headed Tom  
is marrying our friend, Barry  
Cavanaugh, the ex-Presbyterian  
campus minister from Sacto. whose  
wife ran off with the family friend  
and architect. They met in a  
college class on counseling and  
are both now doing professional  
counseling for a living.

Aunt Louise met Uncle  
Harry in a summer college  
course. Guess it's a good place  
to meet potential mates. If  
just as set forward in

Yesterday, dad and I drove to Mill Valley where he spoke on Vietnam. The church was filled and this time the Crash Pad Kids all came. The church has a room with 2 showers available to transients, supported by several churches. The families take turns supplying meals and towels.

After the service, the minister and his wife took us to a picturesque place to eat and have champagne (no kidding) and omelet brunch. The champagne had a beaten egg in it. The minister and his wife have no children and have been married for about 12 years. She is a little platinum-blonde model type with long hair and sexy eyes and works as a therapist in San Rafael. Oh yes, the organist went too. He is <sup>fairly</sup> young and is a Presbyterian theology student and has a wife and 2 children who were not invited. He sat close to the wife of the minister at lunch and put his arm around her as they

walked from the car. But it was all platonic. I haven't quite figured out what her seductive approach means and she seems very shy. She is extremely difficult to communicate with - unless you are a male or her husband who looks at her cow-eyed etc.

We had a nice and cozy visit in Santa Rosa with the Browns & Cheryl and her husband, Mike. He now has a beard and longish hair and looks darling?

Billie is just the same and has a beautiful yard full of flowers which she waters each day. Makes me wonder if I shouldn't just give up the world, resign from Democratic Women and just tend the petunias. (They never argue) Besides, unless Nixon's visit to China is going to wind-up this Vietnam thing, I will care less. Then it's about time we recognized the presence of millions of Chinese on the mainland and quit excluding them from the U.N. and international affairs. Perhaps, it even has earth-shaking significance. Should I maybe just turn to watering ferns and growing sweet peas?

I am sending some face food for

your 10:00 A.M. foot breaks. It is a valuable nutrient.

Happy moving. I know you are busy. How about a message to Davis written during your spare moments at work?

We are using the case histories of Vietnamese in our talks. Pat. Have to give a joint informal discussion to a group of kids at camp in Aug. at Tahoe.

The C.A. will be rented out to a group of about 10 law students in Sept. so all residents will be moving out. Hooray!

Love to all  
and especially mother
