

June 30, 1993

Dear Pat,

I just remembered that the deadline for sending SDSU information about "Alumni before the 50's" for the Aztec Alumni publication, is today, but I'll make a try for it anyway.

This gives me an excuse to write to you and to tell you how much fun it has been to run into you and Herman at the "Before the 50's" reunions. As you know, it was purely an accident that I came to my first reunion, and now I won't miss them if I can help it.

Ok, here's some data. . . . .Do you remember Vernon Rivers? He was a Hod with the rest of us in the Spring of 1943 when the military wished us off to various V-12 and other programs. Vernon graduated from Cal, Berkeley after the war, stayed, got a masters degree, and then went back into the Navy. He retired as a Navy Captain some years ago after which he was appointed Financial Vice-President of The Charleston College (13th. oldest institution of higher learning in the U.S.) in Charleston, South Carolina. He is married with grown children and lives in a Charleston suburb where he is retired again. (Barbara and I are going fly back to visit them in June).

<sup>46</sup> Gordon Hunzicker still practices dentistry in Covina. He is married and has three grown children. His two sons graduated from SDSU where they were SAE's. Gordon affiliated with Kappa Sigma with the rest of the Hods(except for Bob Smith, Art Munzig, Vernon Rivers and me. . . all SAE's). Hunzicker has been a many times golf and tennis champion of the West Covina Country Club.

<sup>44</sup> Art Munzig lives in Los Angeles with his wife of 49 years. They have three grown children. He was president, C.E.O, and founder of Munzig International , one of the pioneer Computer export companies with offices in Tokyo, Brussels, London, Paris, Rome etc. He developed the Daisy word-processor. He is now semi-retired.

<sup>47</sup> Art Sherman , a former photographer for what is now the daily Aztec and a Hod, of course, has been an Art Director for business and industry for many years, and to my knowledge, is still doing it. He and his wife live in La Canada-Flintridge about a mile from where we live. Their daughter graduated from SDSU.

You probably know all about Bob F. Smith, President of Strategies and Teams (conducts management seminars for corporate leaders all over the world). He is still on the Board of Trustees for Phillips-Ramsey Advertising, now affiliated with McCann-Erickson, one of the largest world-wide advertising agencies.

I'm in my sixteenth year at the University of La Verne where I am Director of Forensics and Speech Activities, Faculty Advisor of the University Toastmasters Club of La Verne and Chapter Advisor of SAE. I brought national fraternities and soroties to ULV, a one hundred and two year-old institution. We now have Delta Sigma Phi, Phi Delta Theta and SAE fraternities plus Sigma Kappa and ADPI sororities in addition to a couple of locals.

Barbara retired from High School teaching to become an interior designer, and now she is retired from that. The four grown children are doing well. All graduated from college (one daughter from SDSU, Magna Cum Laude . She lives in El Cajon with her husband and three children).

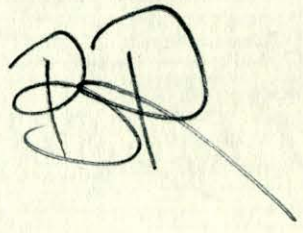

We have one son and one daughter who are high school teachers, and the other son is an attorney and a partner in the Gibson and Rivera Law Firm in Pasadena.

Herman would probably like to hear about Delta Pi Betas whom I know about. I belong to the University Club of Claremont with Bower Forbes who was Student-Body President at State in 1940-41 (He beat Jack Hoxey, a Hod, by one vote. Hoxey has been Recreational Director of Pomona for decades). Forbes is a retired executive from General Dynamics.

Frank Herkelrath, also a Delta Pi Beta at State in 1939 & 40, is also in the University Club and is a retired public School Administrator.

Well, anyway, if you're desperate for copy, this may help. At least you know that I was thinking of you and your return to journalism.

Best Wishes to you both, and I hope to see you at the next reunion!

A handwritten signature in black ink, appearing to be the initials 'BF' or similar, with a long horizontal line extending to the right.
