Dear Helen,

The 1993 edition of the SDSU Alumni News Pre-50's edition was filled with news of many of my college friends and was a joy to read. Thanks to all who worked to prepare the bulletin. From 1929 until 1988 I lived in the SDSU area but now live in Rancho Bernardo.

Please feel to edit this biographical material.

Elizabeth D. Jacobsen Meyer B.A. 1940 and M.A. 1965

As a classroom teacher I specialized in teaching intellectually gifted elementary students, supervising student teachers and writing curriculum materials. Later I was Coordinator of Curriculum Evaluation and a Vice Principal in a number of very large elementary schools during my 33 year career with the San Diego Unified School District. I belonged to the usual professional organizations and was a member of Delta Kappa Gamma, Honorary International Society for Women Educators. My husband, Henry and I have a son and grandson. We took early retirements and for more than 20 years have traveled the globe. Since 1988 we have enjoyed living in Casa de Las Campanas Retirement Community in Rancho Bernardo.

Sincerely,

Elizabeth D. Meyer
