

## ***Dearest Helen Wetzell Wallace,***

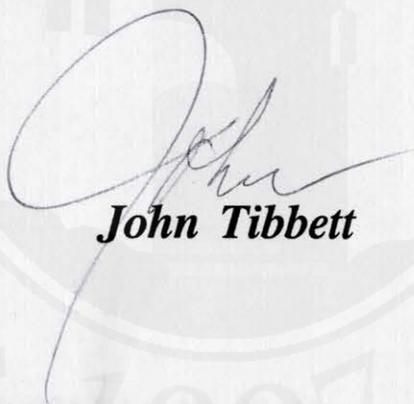

***Snow, four feet deep, has melted in my front yard and on the ski trails where Sault Ste. Marie Michigan meets the Canadian border. Saint Mary's River is flowing the 1000 foot ships through the Locks. Fudge shops are opening in the Sault and summer Tourists are walking the streets eating Michigan fudge, going to the Casino, and riding the Canadian, Algoma Train.***

***I am working on an MBA, leaving my doctorate resting on the ski trails, and attending the National Hockey Champion school, Lake Superior State University. I make Canada everyday as I am taking courses, Calculus and Psychology, Canadian style at Algoma University. I am taking voice and piano at the Canadian Conservatory too. Hockey is my game as I head for practice, stick and puk to the University. I think I will try out for the San Diego Gulls next season.***

***Cathy is busy being school administrator here in the Sault. She is taking piano at the conservatory with me and is keeping her doctorate on the wall while she works for her MBA. Since I am not going to sea again, at least until the next war, I am going to school and getting up to speed in my land locked thinking. This semester I managed Algebra, Trigonometry, Calculus, Chemistry, Psychology, and Music History-Appreciation. I am especially interested in Jazz.***

*The 486 DX computer machine keeps our living communication hot to trot. This summer I am looking for a position. I will go anywhere on the planet to make a significant difference. San Diego, Korea, Japan, Chicago, Taiwan, Thailand, Canada, the Sault, New York, the White Cliffs of Dover, and Texas are a few of my workforce application perimeters.*

*Through the years I have found living enthusiastic and loving. Heart felt warmth and dynamic inner joy sparked my life through Roosevelt Junior High, San Diego High, and San Diego State. All of the early learning Loving relationships keep my life long learning enriched and vibrant. I love you, you wonderful people! You are always welcome in my home and in my life.*

*John Tibbett*
