

Dear Aztecs:

What a job you are doing! Almost everyday now we get good news from all fronts! Every time such reports come over the radio I seem to feel that they are personal, for the thought comes that some of you Aztecs are there making the successes possible.

While we are with you in spirit, believe me we are still missing you here! I believe that you can be proud of the Aztecs who are on the campus including 26 men who have returned from service, all helping to carry on the fine traditions to which each of you has made his own unique contribution. In addition to campus activities, a big majority of the students are helping the big cause in which all of us are so vitally interested by working or by serving in various war-related welfare activities.

I want you to know that while most of us do not write very much we are taking the position that Dr. Post and the News Letter are quite accurately and adequately representing everyone of us to everyone of you.

May you all spend the Christmas of 1945 at home, preceded by several months of quiet civilian life.

Sincerely,

Walter R. Hepner
