General Information

Ordinarily, proposals for curricular change are initiated by departments, although any member of the university community (faculty member, student, or administrator) may begin the process.

In most instances, a proposal pertains to a program of instruction within a particular college. If that is the case, the proposal is submitted to the respective college curriculum committee or other advisory body which screens curricular proposals to examine the proposal and make a recommendation. It is then forwarded to the Dean of the college.

Whenever a department other than the one in which the proposal was initiated has a legitimate concern with the subject of the proposal, concurrence by that department should be obtained before the proposal is submitted. The college screening committee bears a major responsibility to make sure that potential interdepartmental conflicts are resolved as early in the process as possible. The department which initiates the proposal can facilitate matters by negotiating directly with other concerned departments in the process of writing the proposal. The sooner this is done, the better.

In some cases, the possible conflicts referred to above involve more than one college. Preliminary negotiations between departments and between colleges are highly recommended. Final responsibility, however, rests with the Graduate Council for graduate level proposals or the Undergraduate Curriculum Committee for undergraduate proposals and with the Senate.

It is only prudent to be aware that over many years, the Undergraduate Curriculum Committee has been extremely reluctant to approve proposals to which there are strong and unresolved objections by any department or college. In some instances of such conflict, the Undergraduate Curriculum Committee has acted to resolve the matter. In other instances, the problem has been resolved by the Senate.

Submission deadlines for proposals are scheduled in February each year in order to prevent the bunching of proposals and thus to arrange, on a more rational basis, the work of the Undergraduate Curriculum Committee, the Graduate Council, etc. There is a regular system of rotation among the colleges so that the first shall be last and vice versa (at least eventually).

After receiving a curricular proposal, Curriculum Services is responsible for the proposal until its final disposition. If it is approved, Curriculum Services has the responsibility for placing it in the catalog in the form in which it has been finally approved. Each proposal is given an initial perusal keeping the following in mind:

1. Is the language clear and grammatical?
2. If the proposal is for a new degree, is the degree on the Master Plan?
3. Are the justifications advanced for the proposal persuasive and in accord with university policy?
4. Is the form of the proposal consistent with present catalog material?

Certain formulas recur in the catalog, e.g., “Maximum credit six units.” If the proposal reads: “This course may be repeated with new content up to a maximum of six units credit,” Curriculum Services will replace the sentence with the standard phrase without consulting the department which initiated the proposal. Curriculum Services’ editorial discretion includes the practice of eliminating from proposed course descriptions such phrases as “A study of . . .,” “Analysis of . . .,” etc. In general, unnecessary articles (both definite and indefinite) will be removed from course descriptions whenever this can be done without changing meaning. More drastic changes will be made only upon consultation with those who initiated the proposal.

All submitted proposals are available to view in CurricUNET.

General Education proposals are sent to the General Education Committee for review; proposals dealing with graduate level programs will be forwarded to the Graduate Curriculum Committee for approval then forwarded to the Graduate Council for action. Upper division courses (500-599) acceptable for advanced degrees are reviewed by both the Undergraduate Curriculum Committee and Graduate Curriculum Committee.

Ordinarily, proposals dealing exclusively with the graduate program need no further processing and will be incorporated into the San Diego State University program of instruction. There is one important exception to this. Proposals for new degree programs which require off-campus approval will be submitted to the Committees on Academic Policy and Planning and Academic Resources and Planning for their evaluation and recommendation. These programs also need approval of the Senate, the President, and the Chancellor’s Office.
Guidelines for Submitting Curricular Proposals

Reports outlining curricular proposals once approved by the Deans are forwarded to the Undergraduate Curriculum Committee. However, if the proposal is for a new degree program, a new minor, or a new option, emphasis or concentration, the proposal will be reported to the Committees on Academic Policy and Planning and Academic Resources and Planning for their evaluation and recommendation. Only then will such a proposal be forwarded to the Undergraduate Curriculum Committee. Some proposals for new degree programs, new minors, and new options, emphases or concentrations, must be forwarded to the Chancellor’s Office for approval after being approved locally. Instructions from the Chancellor’s Office are included in this Guide.

Executive Order No. 1071 delegates authority to the President of San Diego State University to approve options, concentrations, special emphases, and minors in designated academic subject categories. A list of areas which can and cannot be approved locally is included in the appendix of this booklet.

For many undergraduate curricular proposals, approval by the Undergraduate Curriculum Committee is the final step toward their being incorporated into the San Diego State University program of instruction. All such proposals are included in the committee’s regular Information report to the Senate. If, however, four members of the committee so request, a given proposal will be submitted to the Senate as an “action” item. Ordinarily, proposals pertaining to individual courses and minor revisions of existing programs are part of the information report and proposed new degree programs, minors, options, etc., as well as revisions of graduation requirements, are incorporated in the report intended by the committee for action by the Senate.

Role of the Undergraduate Curriculum Committee

Policy adopted by the Senate, May 8, 1979 and revised May 17, 1994

1. Undergraduate proposals reviewed by the Deans, and Undergraduate Council (when appropriate) will be forwarded by the Office of the Provost to the Undergraduate Curriculum Committee. This committee shall be composed of the Provost, Curriculum Services, the Dean of the Division of Undergraduate Studies, one representative from each college and the Imperial Valley Campus selected by the Committee on Committees, and two students named in accordance with procedures approved by the Associated Students Council.

2. The Undergraduate Curriculum Committee shall be responsible for the review of undergraduate curricula to include additions, deletions, and changes in curricula, giving special consideration to those items which are of an interdepartmental and/or university-wide interest. The committee shall report all approved changes to the Senate. Ordinarily, approval by the committee shall be the final step at the local level required for including any undergraduate curriculum proposal in the San Diego State University General Catalog, except for approval of the use of courses in the graduate program. Proposals for new programs and deletion of programs shall be forwarded to the Senate as action items. Also, if as many as four members of the Undergraduate Curriculum Committee so request, a proposal shall be placed on the agenda of the Senate for final action.

3. Any individual, department, Dean, or college curriculum committee may request the Undergraduate Curriculum Committee to review any decision on any curriculum proposal. The committee may agree to review the matter and inform all interested parties of the decision to review and of the date set for the review, or the committee may decide not to review and promptly inform the appellant of its decision.

Undergraduate Curriculum Committee Guidelines for Evaluating New Course Proposals

The following guidelines are used by the Undergraduate Curriculum Committee to evaluate course proposals:

Course Prerequisites and Description

1. Does the course title accurately and concisely reflect the course description?
2. Is the course description clear?
3. Are the number of units appropriate to the course content and mode of instruction?
4. Do the required prerequisites logically relate to the proposed course? What purpose do they serve?
5. Does it duplicate any existing course(s) presently in the catalog?

Course Justification

1. Does the course warrant academic credit?
2. Does the need for the course seem sufficient given resources required?
3. Do the course objectives address the stated need for the course?
4. Do the course objectives reflect the level of the course, as indicated by the proposed course number?
5. Do the suggested texts validate the proposed level of the course? Relate to the course content?
6. Does the course content articulate with the mission of the university?
