Miss Ann Moore
1118 Villanova Dr.
Davis, California

Dear Ann,

This is just a short note as I included most of the pertinent facts in my letter to mom and dad. Be sure to read it.

I was very happy to hear that dad got appointed as District Superintendent. Jim called me just before the Bishop called and told me not to leave the house as an important call would be coming in. He even mentioned when you all were in Seattle that he felt dad could be a DS, if he did not get the Bishop position. Anyway he told me to be sure and call Washington to make sure the Bishop's message got through. The Bishop gave me no idea what he was calling about, but Jim has forewarned me so I knew it was important concerning a job for dad.

If you are interested in getting in in the fall semester we must try to get you enrolled right away as it is crowded getting in the fall at this late date. (though it has been done before) There is plenty of room in the dorms so no problem there. I mentioned some of the details in the letter to mom and dad. I think it would be helpful in getting in ~~schodorms~~ if one of us here could help you enroll as we have had some pull in the past in getting people in at the last moment. Let me know as soon as you get home.

Be sure to read the other letter as I mention one of the most astounding things to ever happen in one of our meetings.

So many people told me to say "Hello" to you that I can't remember them all now, but they enjoyed meeting you and would like to know you better.

I have got to close as we are painting the kitchen and cleaning walls today.

Patricia sends her love--she really had a ball talking to you.

Much love and concern,

Carolyn
