

i just wrote a song which Becky caused me to write so here it is. Don't laugh because it's just a junior. (???)

twinkle toes
give a little jump
and make yourself feel good
give a big smile
and make someone else feel good
and make your world better,
give a little joy
and don't be so low down
just don't get me down
because it's happy right now

i like it when I'm happy
'cause then it's not down
i like to see you smiling
you brighten up my day
it's only once awhile
that i can be so happy
so you just go to bed
if you're going to make me down

i think about the starving
i think about the poor
you see my face crying
i cry a good share
but now i am happy
so why can't you be too
just come on with me
and i'll whistle to you!

i didn't show it to Becky because she's not in too good of a mood.
