Dear Anna-Banana

If you have not had a TB test in order to work there in Children's Hospital, you should.

Marciel Tamperin had a Positive report after being tested for TB, so all of us have to be tested - just to ~~make~~^{make} sure. It's nothing to ~~be~~^{be} excited about as you haven't been that close to her, ever. It's just a precaution.

We're glad you're having such a fine time there. Are you learning to sew, yet? There will be ~~more~~ time for that later.

Love,
Mother
