Tuesday

Dear Ann:

How's camp? How do you like camping out under the stars? It looked to me as though you have a great camp site....and not too far from the swimming pool. Unless I miss my guess...I'll bet that you look forward to the swimming.

Be careful of those magnifying glasses. If they can burn wood, they can also burn grass; so don't leave them lying about.

Mother and Becky left this morning after Becky had her foot checked by the doctor. She has to have her finger operated next week when we all come back from Long Beach.

Tomorrow we begin our United Nations seminar. It's like school for adults. We learn about the nations of the world. We expect to have an African speak to us in the morning, and perhaps a Czechoslovakian in the afternoon.

It's been drippy at home. The painters are on strike; so they won't finish painting the house until the strike is over.

Learn lots of things. Have a lot of fun.

I must go to one of those meetings.....

I'll see you Friday night.

Love,

Daddy
